**COMMENTS OF  
Plymouth Area Community Access Television  
IN RESPONSE TO THE FURTHER NOTICE  
OF PROPOSED RULEMAKING**

**Plymouth Area Community Access Television (PACTV)** submits these comments in response to the Further Notice of Proposal Rulemaking, released March 5, 2007, in the above-captioned rulemaking ("Further Notice").

1.     **The Town of Plymouth** is the local franchising authority for Plymouth, Massachusetts. **The Town of Kingston** is the local franchising authority for Kingston, Massachusetts. **Plymouth Area Community Access Television (PACTV)** is the PEG Access provider for both towns. We provide training and facilitation of programming for the public access channels, government access coverage and programming for both towns' government access channels, and Educational access coverage in the town of Kingston. We have a membership of over 400. There are approximately 25,000 cable subscriber households in the towns we serve. There is one franchised cable operator, Comcast, within **PACTV's** jurisdiction.

The current expiration dates of the Comcast franchises are June, 2016 in Plymouth and March, 2007 in Kingston.

2. **PACTV** supports and adopts the comments of the Alliance for Community Media, the Alliance for Communications Democracy, the National Association of Telecommunications Officers and Advisors, the National League of Cities, the National Association of Counties, and the U.S. Conference of Mayors, filed in response to the Further Notice.

3. We oppose the Further Notice's tentative conclusion (at ¶ 140) that the findings made in the FCC's March 5, 2007, Order in this proceeding should apply to incumbent cable operators, whether at the time of renewal of those operators' current franchises, or thereafter. This proceeding is based on Section 621(a)(1) of the Communications Act, 47 U.S.C. § 541(a)(1), and the rulings adopted in the Order are specifically, and entirely, directed at "facilitat[ing] and expedit[ing] entry of new cable competitors into the market for the delivery of video programming, and accelerat[ing] broadband deployment" (Order at ¶ 1).

4. We disagree with the rulings in the Order, both on the grounds that the FCC lacks the legal authority to adopt them and on the grounds that those rulings are unnecessary to promote competition, violate the Cable Act's goal of ensuring that a cable system is "responsive to the needs and interests of the local community," 47 U.S.C. § 521(2), and are in conflict with several other provisions of the Cable Act. But even assuming, for the sake of argument, that the rulings in the Order are valid, they cannot, and should not, be applied to incumbent cable operators. By its terms, the "unreasonable refusal" provisions of Section 621(a)(1) apply to "additional competitive franchise[s]," not to incumbent cable operators. Those operators are by

definition already in the market, and their future franchise terms and conditions are governed by the franchise renewal provisions of Section 626 (47 U.S.C. § 546), and not Section 621(a)(1).

5. We strongly endorse the Further Notice’s tentative conclusion (at para. 142) that Section 632(d)(2) (47 U.S.C. § 552(d)(2)) bars the FCC from “preempt[ing] state or local customer service laws that exceed the Commission’s standards,” and from “preventing LFAs and cable operators from agreeing to more stringent [customer service] standards” than the FCC’s.

Respectfully submitted,

---
